

2025 marks a milestone for the Set Free Movement—fifteen years of moving in the direction of freedom, hope, and healing.

When we started in 2010, there were an estimated 27 million people trapped in human trafficking. Today, that number has risen to over 50 million. The need is overwhelming, but it's not the whole story. Across five continents, churches are mobilizing, youth are being reached and trained, survivors are being supported, and communities are standing up for justice.

THE SET FREE MOVEMENT HAS MOBILIZED A GLOBAL RESPONSE TO MODERN-DAY SLAVERY—AND THESE NUMBERS TELL THE STORY.
